- If you are using a school chromebook, to access M365 you will need to use the web browser to access the Teams site. It is recommended to log onto the gateway, click the outlook icon and then bookmark the site. Then, after you log on, click the waffles. You will see the Teams app. You can access your team there.

You will then see all the available apps:

- Outlook is your email
- Onedrive is where your files will be stored
- Word is for creating creating word documents
- Excel is for spread sheets
- Sway and Power point are to create presentations
- Forms will help you create surveys and complete quizzes
- **Teams is the site we will be using to teach online**

Access Teams and download the app (if you didn't previously install all the applications).

- Click on the Teams icon:

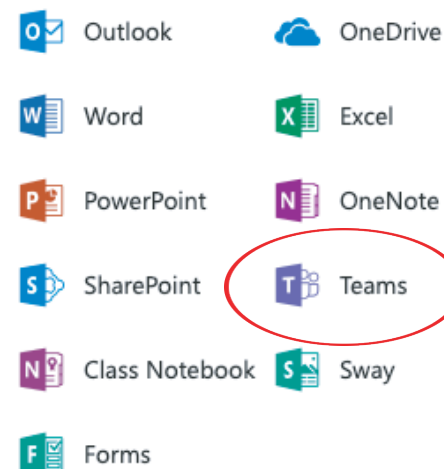

This will give you access to your active Teams. If you wish to download the app click the bottom icon that looks like a TV and follow the directions to install it.

- On this view you can access Chat (only under teacher supervision)
- Look at assignments
- Check your calendar
- Call the teacher for help
- Access files related to this Team
